

I am concerned about the possibility of LPFM stations negatively impacting national or regional services such as our beloved K-LOVE station at 88.9 FM. K-LOVE is a family oriented source of spiritual encouragement, local news and interests, and Godly wisdom. I listen daily to this station as do many others in the Myrtle Beach/Wilmington area. I believe that it would be a great tragedy for such an inspirational station to be forced off the air (or even lose a portion of its listening area) due to new rulings regarding LPFM services.
